

# **Notice of oral hearing cancellation and establishment of new written process for the Winnifred Wind Power Plant Connection Project**

## **Proceeding 26707 Applications 26707-A002 to 26707-A004**

The Alberta Utilities Commission has cancelled the virtual oral hearing for Proceeding 26707, which was scheduled to commence on October 18, 2022, via web conference and has established a new process schedule for the filing of written submissions.

The oral hearing was originally set to consider the applications filed by Enerfin Energy Company of Canada Inc. and AltaLink Management Ltd. In the applications, Enerfin and AltaLink requested approvals to construct and operate a new 138-kilovolt transmission line, to be designated as Transmission Line 498L, to connect the existing Bullshead 523S Substation to proposed Transmission Line 498L, and to upgrade the substation to accommodate this proposed connection.

After certain interveners withdrew their objections, Enerfin filed a motion to cancel the virtual oral hearing. The Commission issued a ruling on September 28, 2022, cancelling the oral hearing and establishing a new process schedule for the filing of written submissions. The ruling is available on Proceeding 26707 as Exhibit 26707-X0292.

Issued on September 28, 2022.
