The Alberta Utilities Commission has cancelled the virtual oral hearing for Proceeding 28753, which was scheduled to commence on June 5, 2024, via web conference. The hearing was to consider the applications filed by Strathcona Resources Ltd. requesting approval for an industrial system designation amendment, to construct and operate an additional 67.5 megawatts of power for its existing Lindbergh SAGD power plant, to construct and operate an associated substation, and a connection order.

The Commission cancelled the hearing in response to the withdrawal of the statement of intent to participate from Cold Lake First Nations, the sole intervener in the proceeding.

The Commission will continue to review the applications filed by Strathcona Resources Ltd. without a hearing, and a decision will be issued in due course.
